## Vision

The School Games will make a positive and meaningful difference to the lives of children and young people through sport and physical activity.

## Mission

Putting physical activity and school sport at the heart of schools. Providing young people with the opportunity to enjoy and learn through competition to achieve their personal best.

# Outcomes

The five School Games outcomes ensure that there is a clear direction and a collective ask to the School Games network to work towards the same priorities for young people in Year 3 to 13 across all education settings.

**The outcomes for the School Games network to work towards in the 2023/24 are:**

### **1 To advocate and position the delivery of the CMO daily active minutes for all young people, as a universal offer to maintain and grow school engagement<sup>1</sup>**

Helping schools prioritise the delivery of the Chief Medical Officer's recommended 60 active minutes a day, or 20 minutes a day for SEND students. Supporting improvements in student's physical literacy, and social, emotional and physical wellbeing.

### **2 To ensure all competition has a clear intent and creates positive experiences based on the motivation, competence and confidence of the young people that need our support the most**

Using local insight to target young people who would receive the greatest benefit from involvement in competitions. This includes students from low socio-economic backgrounds, minority ethnic groups, SEND students and girls.

### **3 To have a clear focus on secondary school engagement and transition points**

Prioritising delivery in secondary schools whilst also recognising the impact on students transitioning in early Key Stage 2 and from Key Stage 2 to 3.

### **4 To support the personal development of targeted young people through youth engagement and leadership**

This includes opportunities across the full breadth of the School Games which incorporates physical activity, competition, high quality leadership and youth engagement.

### **5 To advocate and engage key stakeholders<sup>2</sup> on the value of School Games to support local provision and improve the experience for young people and their families**

Showing the role the School Games can play in making a meaningful difference to the lives of young people. Encouraging engagement from local stakeholders including senior leadership teams, Public Health and parents.
